SUMMARY

Frontend Developer with a strong passion for building clean, responsive, and visually appealing web interfaces using HTML5, CSS3, JavaScript, and Bootstrap. Experienced in developing reusable UI components and integrating REST APIs, with a keen eye for design consistency and user experience across all screen sizes.

PROJECTS

Project Name 2 – e.g. Personal Portfolio Website

Personal Project | January 2026 [GitHub Repo](#) [Live Demo](#)

- Designed and built a personal portfolio website to showcase projects and skills using HTML5 and CSS3.
- Created smooth scroll animations, hover effects, and transitions using pure CSS for an engaging user experience.
- Made the site fully responsive using Bootstrap's grid system for mobile, tablet, and desktop views.
- Tech Stack: HTML5, CSS3, Bootstrap, JavaScript

YouTube Clone – Video Streaming UI

Personal Project | March 2026 [GitHub Repo](#) [Live Demo](#)

- Designed and built a pixel-perfect YouTube homepage clone using only HTML5 and CSS3.
- Created a fully responsive sidebar, header, and video grid layout using CSS Flexbox and Grid.
- Built the navigation bar with search box, icons, and channel avatars using pure HTML and CSS.
- Implemented hover effects on video thumbnails and sidebar menu items using CSS transitions.
- Made the layout fully responsive for mobile, tablet, and desktop screens using CSS media queries.
- Tech Stack: HTML5, CSS3
